EXPLANATION OF RELEVANCE

References AL, AM, AN, AO and AP were cited during previous examination of the present PCT application. Accordingly, no further commentary concerning their teachings is believed to be necessary.

15 References AQ, AS, AT and AU are further prior art references known to the Applicants. References AS and AU are in English. Accordingly, no further commentary concerning their teachings is believed to be necessary.

20 The present application includes a discussion of reference AQ which also correspond to reference AP. Accordingly, no further commentary is believed necessary. Finally, German reference AT describes a conventional method for amplification of optical signals using laser pumping. If, however, a translation is required by the Examiner, the Applicants would be willing to submit a translation.

Copies of each of the above references together with Form 1449 and the European Search Report are submitted herewith.

5 The Information Disclosure Statement is being filed concurrently with the present application, and is therefore in compliance with 37 C.F.R. §1.97(b)(1) and no fee is necessary.

10 The above citation of prior art is not a representation that such art constitutes a complete or exhaustive listing of all pertinent prior art, nor that it necessarily includes the closest or most relevant art. The aforementioned citation comprises a voluntary citation of prior art of which Applicants are presently aware and is not intended to serve as a substitute for the Examiner's own search.

Respectfully submitted,

 (Reg. No. 28,982)
